

HEALTH AND SAFETY POLICY STATEMENT

Kitchequip are totally committed to achieving the highest possible standards throughout our organisation and fully acknowledge our statutory responsibilities and obligations regarding health, safety and welfare.

We will ensure that our premises are safe and that our employees, our customers and any other persons are not exposed to risks arising from our activities.

We will do everything reasonably practicable to provide a safe and comfortable workplace and will ensure that health and welfare requirements are fully considered.

We will continue to promote a positive safety culture throughout our organisation with a visible commitment to safety by Management and active workforce participation and ownership of safety problems and solutions.

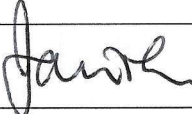

We are committed to continuous improvement of our health and safety performance, and will set annual targets against which our improvement can be measured.

In order to meet these commitments, we will

- Ensure adequate financial and other resources are made available to effectively implement the safety management system
- Provide suitable training and information for all employees
- Ensure that contractors we engage are competent to carry out their duties and receive the necessary information
- Ensure that all work equipment is suitable for its intended purpose and maintained in a safe condition
- Fully assess all risks and ensure that they are adequately controlled
- Ensure that our premises and work areas are as safe as possible, fully supervised at all times and monitored
- Ensure adequate resources are available for health and safety requirements
- Regularly review and update our health and safety management system following changes to legislation or in our working practices. In any event this will be reviewed annually

We expect our employees to play their part and to recognise that they too have responsibilities towards health and safety. We will encourage them to take positive measures to improve anything which they feel is unsafe and puts themselves and others at risk, and to challenge anyone working unsafely, without fear of reprisals.

Everyone within Kitchequip will play their part to ensure that the above standards are achieved.
