Installation notes

Adequate ventilation must be provided to supply sufficient fresh air for combustion and to allow easy removal of any such products that may present a risk to health. Please consult current legislation for details that relate to specific locations.

Install unit on a level, fireproof surface in a well-lit, draught free position. If floor is made of a combustible material, local fire requirements must be checked to ensure compliance.

A clearance of 150mm should be observed between appliance and any combustible wall.

Specification details

Total rating (natural and propane - kW - Nett)	14		
Total rating (natural and propane - btu/hr - gross)	52,545		
Inlet size (natural and propane)	1/2" BSP		
Flow rate - natural (m ³ /hr)	1.46
